

# Shipping Modules to UK (USA)

- First real shipment (20 modules) will occur during the week March 15
- Waiting for shock logs
  - agreement on which device to get just reached
  - about 2 weeks delivery
- Internal box same as used for “dummy” shipment but with 20 slots instead of 10
- Wooden Pallet
- Outer box (similar) but more foam than original
- DB all uploads of datasheets and results all done except final signoff
- Final visual inspection is happening this week

# Plan

After first shipment we'll proceed on getting ready for the following ones

We don't have a well defined plan yet

Depends on the schedule that will be made known to us

- what UK expects us to ship and when
- modules for B3 or B4/B5

Currently we have:

GOOD 260 (152 ANY, 108 B5B6)

PASS 43

52 re-analyzed and almost fully uploaded to the DB  
(42 GOOD, 10 Pass) for B3
